

Contraception Apps and Websites

— Resource Digest —

This guide was compiled to help identify contraception resources (mobile apps and websites) for use by both clinicians and patients. Resources listed below are for informational purposes only, and inclusion does not imply endorsement by ACOG. Selection criteria included apps and websites that are provided at no cost; have been updated within the past year; and have an educational, non-commercial focus.

This list is not meant to be comprehensive, and exclusion does not reflect the quality of a resource. Clinicians should review resources for appropriateness prior to recommendation, and discretion should be used when downloading or accessing any resource; ACOG is not liable for any technological damage associated with the use of these resources. Resources are subject to change without notice.

Clinician Apps

- **ACOG.** Fountainhead Mobile Solutions: [Android](#) | [iOS](#)
- **Contraception.** Centers for Disease Control and Prevention: [Android](#) | [iOS](#)

Patient Apps

- **Bedsider Birth Control Reminders.** Bedsider: [Android](#) | [iOS](#)

This information is designed as an educational resource to aid clinicians in providing obstetric and gynecologic care and use of this information is voluntary. This information should not be considered as inclusive of all proper treatments or methods of care or as a statement of the standard of care. It is not intended to substitute for the independent professional judgment of the treating clinician. Variations in practice may be warranted when, in the reasonable judgment of the treating clinician, such course of action is indicated by the condition of the patient, limitations of available resources, or advances in knowledge or technology. The American College of Obstetricians and Gynecologists reviews its publications regularly; however, its publications may not reflect the most recent evidence. Any updates to this document can be found on www.acog.org or by calling the ACOG Resource Center.

While ACOG makes every effort to present accurate and reliable information, this publication is provided "as is" without any warranty of accuracy, reliability, or otherwise, either express or implied. ACOG does not guarantee, warrant, or endorse the products or services of any firm, organization, or person. Neither ACOG nor its officers, directors, members, employees, or agents will be liable for any loss, damage, or claim with respect to any liabilities, including direct, special, indirect, or consequential damages, incurred in connection with this publication or reliance on the information presented.
